EVENT NAME: Build O thon 2.0
12-Hour Overnight Challenge

RULES & REGULATIONS

General Guidelines:

- **Team Dynamics:** Teams must consist of **2 to 4 members**. Each member must register individually.
- **The Sprint:** This is a continuous 12-hour hack. Teams must remain at the venue for the duration of the event.
- **The Challenge:** A problem statement and specific hardware (sensors/modules) will be provided at the start.

Technical Rules:

- **AI Permitted:** AI tools, such as ChatGPT, Gemini, and Copilot, can be used for code generation, troubleshooting hardware errors, and refining logic.
- **Hardware Policy:** Only the hardware provided or pre-approved by coordinators can be used. All wiring and assembly must happen within the 12-hour window.
- **Originality:** While AI tools can assist, the team's work must include the final integration and functional logic.

Evaluation & Judging:

- **Final Demo:** Teams must present a working prototype at the end of the 12th hour.
- **Judging Criteria:**
 1. **Functionality:** Does the hardware solve the problem statement?
 2. **Innovation:** How creative is the solution given the constraints?
 3. **Stability:** Is the prototype robust and the code well-optimized?
 4. **Presentation:** Clear explanation of the workflow of the project.

Note: If fewer than 15 teams participate, only second and third prizes will be awarded.

Event Coordinator Details:

a. Name: Alok Muralal
Phone Number: 9141092004

b. Name: Kiran Sindagi
Phone Number: 6366343547
